

Trooper "A" has an Area of Effect Weapon of 2x Burst  
Trooper "A" has Line of Sight on Trooper "2" and Trooper "3".  
The Target is Trooper "2".  
Trooper "3" is within 3 inches of Trooper "2" and has no cover from the bush.  
Therefore Trooper 3 is also hit.

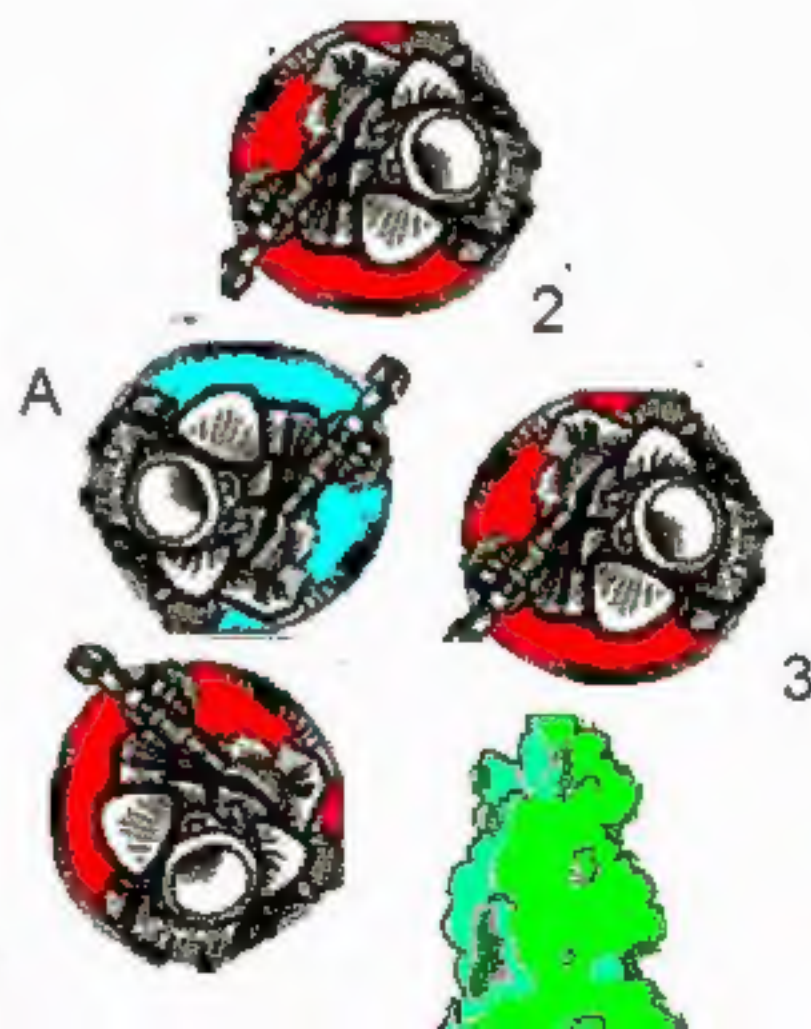

NOTE: Even though Trooper "1" is within the 3 inches he is not in the Line of Sight of Trooper "A" and therefore not a valid target for the Burst Area of Effect.

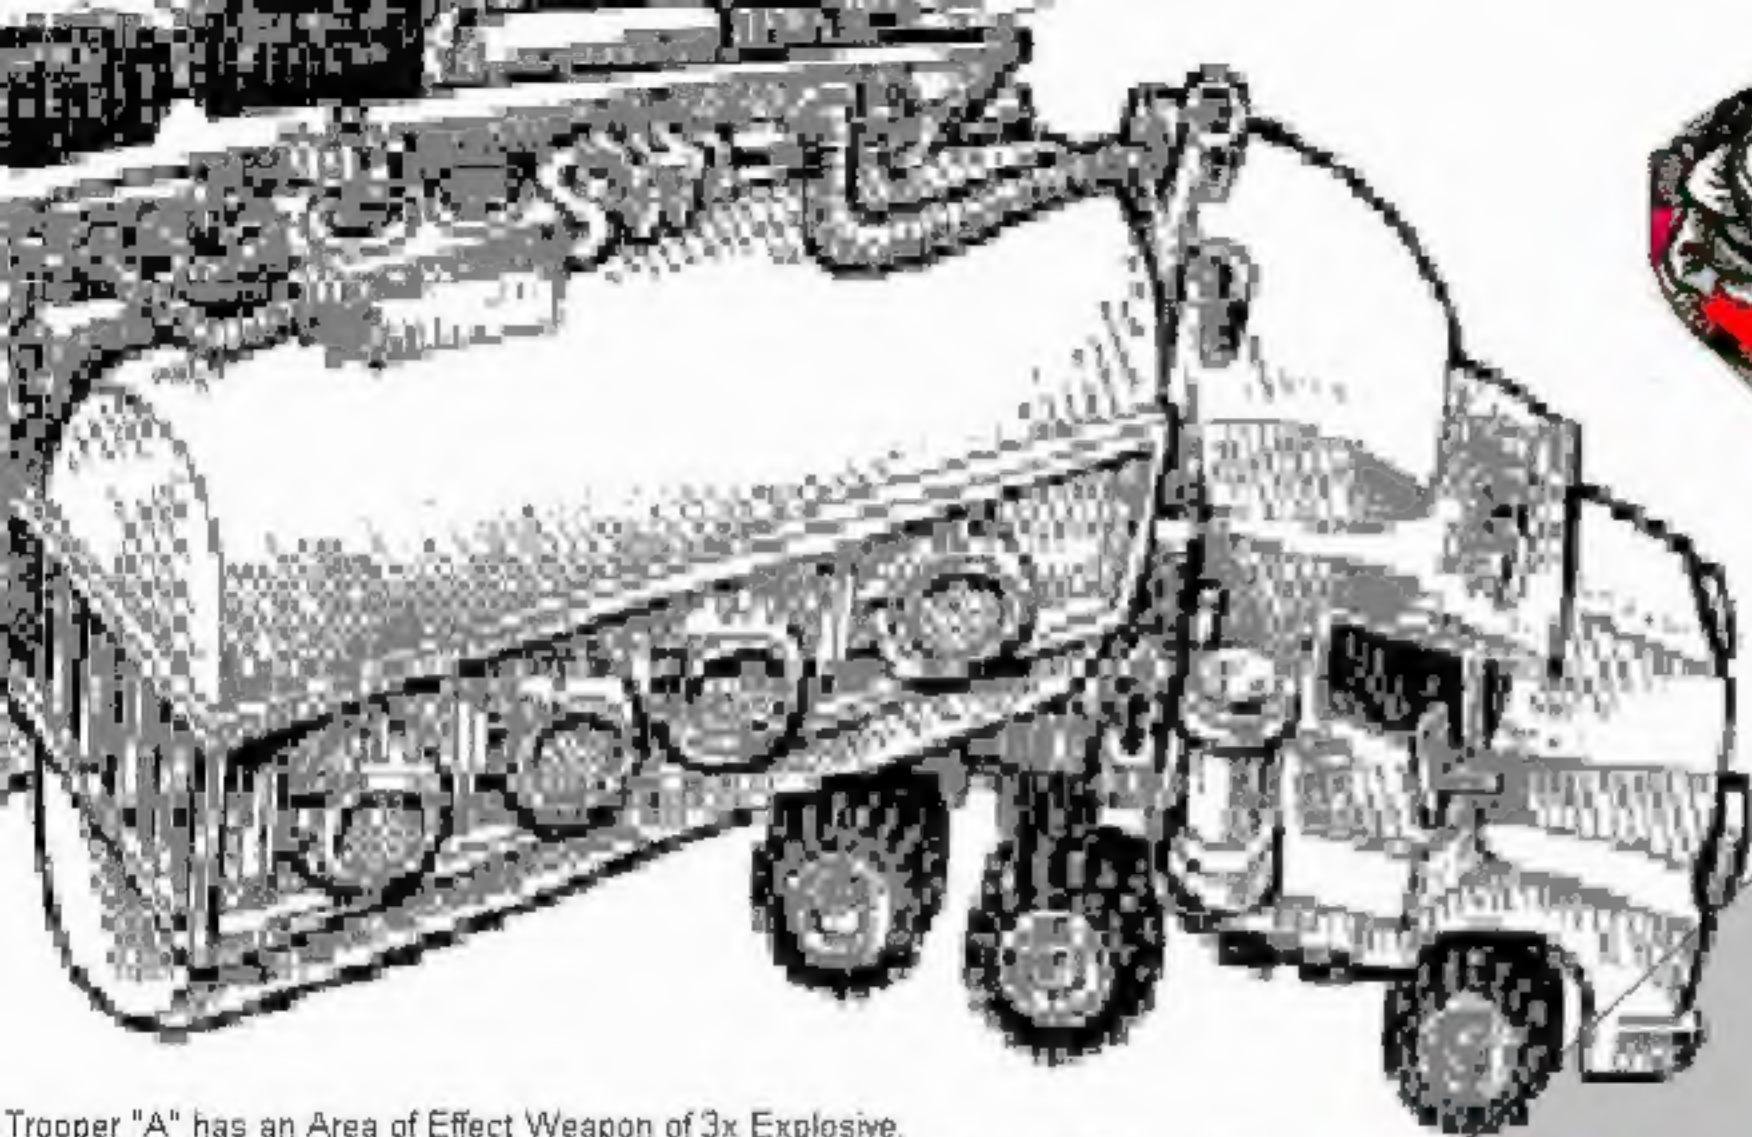

Trooper "A" has weapon with a Close Combat Area of Effect of 2x.  
 All of the troopers in the red Squad are in close combat with Trooper "A".  
 Trooper "A" may choose any one of the other Squad as the target of the Close  
 Combat Attack, and then a second trooper from the remaining unattacked troopers.

Example: Trooper "A" attacks Trooper "2". The Area of Effect of Close Combat  
 Allows Trooper "A" to select from either Trooper "1" or Trooper "3".  
 Trooper "A" cannot elect to hit Trooper "2" a second time with this same Area of Effect.

A

Trooper "A" has an Area of Effect Weapon of 3x Explosive.  
Trooper "A" has Line of Site on Trooper "2" and Trooper "3", but not on Trooper "1".  
Trooper "2" is the Target.  
Because Trooper "2" has Line of Site on Trooper "3" and Trooper "1" and both are within the 3 inch radius of the Area of effect all three Troopers are hit.

The Light Grey shows the Line of site for Trooper "A" to Trooper "2".  
The Dark Grey shows the Line of Site for Trooper "2" to Trooper "1" and Trooper "3".
